

## Cologne International Energy Summer (CIES) in Energy and Environmental Economics August 10 – 14, 2015, Cologne, Germany

**Conference Venue:**  
Institute of Energy Economics (EWI)  
at the University of Cologne  
Vogelsanger Str. 321a  
50827 Cologne - Germany

### Program Overview (as of August 5, 2015)

#### Monday, August 10

---

- 09:00-09:30**    **Welcome**
- 09:30-11:00**    **Environmental Regulation and Electricity Market Structure I**  
Erin Mansur (Dartmouth College)
- 11:00- 11:30    Coffee Break
- 11:30-13:00**    **Environmental Regulation and Electricity Market Structure II**  
Erin Mansur (Dartmouth College)
- 13:00-14:30    Lunch Break
- 14:30-16:00**    **Demand Response: Smart Market Designs for Smart Consumers.**  
Nicolas Astier (Toulouse School of Economics)
- Impact of Electricity Prices on Foreign Direct Investment: Evidence from the  
European Union.**  
Eva Bartekova (UNU-MERIT and Maastricht University)
- 16:00-16:30    Coffee Break
- 16:30-18:00**    **Cross-Border Effects of Capacity Mechanisms: Do Uncoordinated Market Design  
Policies Countervail the Goals of European Market Integration?**  
Olga Gore (Lappeenranta University of Technology)
- Evaluating the Efficiency of the Spatial Distribution of Solar Installations**  
Anatolii Kokoza (University of Arizona)
- 19:00**            **Dinner**
- 

**Tuesday, August 11**

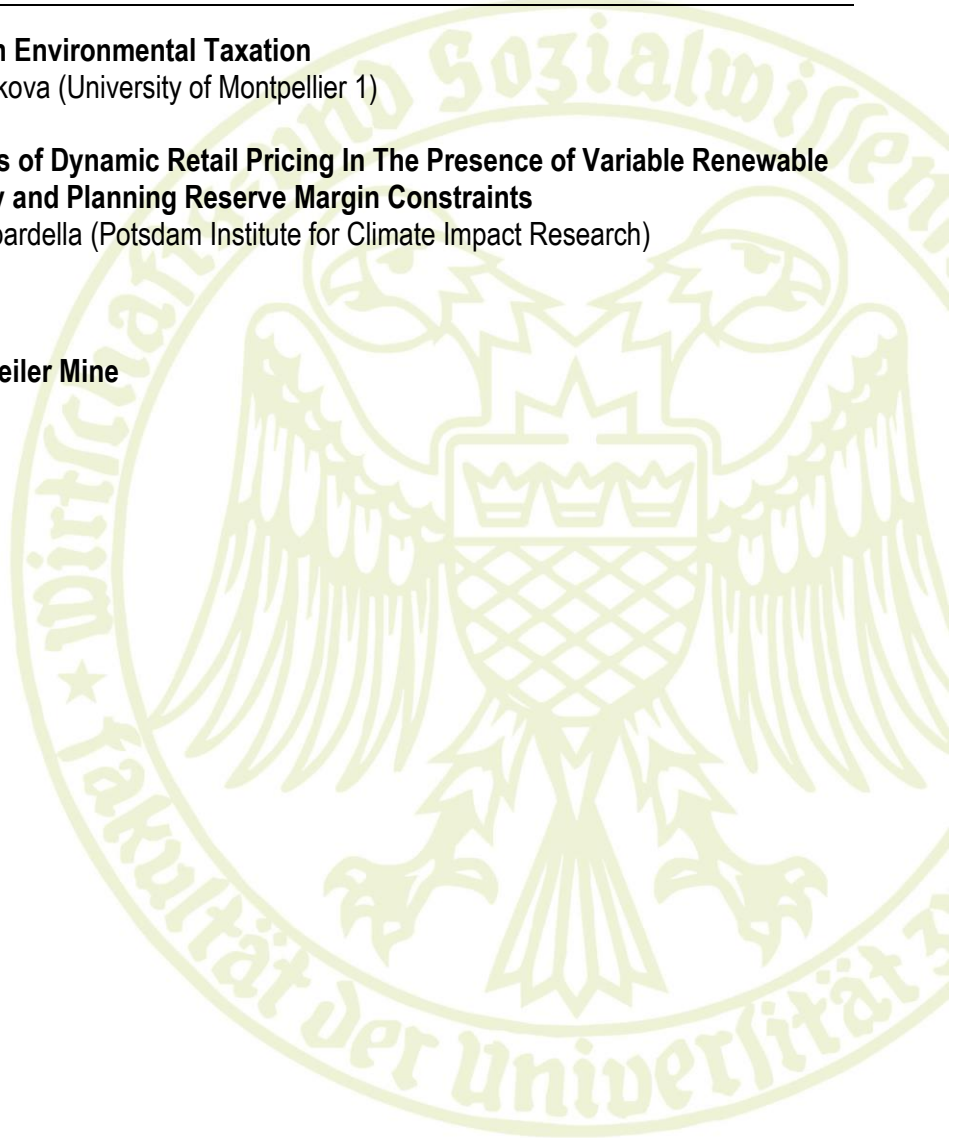

---

**09:30-11:00 Free-Riding on Environmental Taxation**  
Masha Chistyakova (University of Montpellier 1)

**Welfare Effects of Dynamic Retail Pricing In The Presence of Variable Renewable  
Energy Supply and Planning Reserve Margin Constraints**  
Christian Gambardella (Potsdam Institute for Climate Impact Research)

11:00- 12:30 Lunch Break

**12:30-18:00 Tour to Garzweiler Mine**

**Wednesday, August 12**

---

- 09:30-11:00 Environmental Regulation and Electricity Market Structure III**  
Erin Mansur (Dartmouth College)
- 11:00-11:30 Coffee Break
- 11:30-13:00 Environmental Regulation and Electricity Market Structure IV**  
Erin Mansur (Dartmouth College)
- 13:00-14:30 Lunch Break
- 14:30-16:00 Switching Response to Power Prices: Evidence from German Households**  
Gerhard Kussel (RWI and Ruhr University Bochum)
- Learning Spillovers, Increasing Marginal Costs and the Efficiency of Differentiated Renewable Energy Support Policies**  
Kira Lancker (University of Kiel)
- 16:00-16:30 Coffee Break
- 16:30-18:00 Carbon Price Instead of Support Schemes: Wind Power Investments by the Electricity Market**  
Marie Petitet (Paris-Dauphine University)
- The Effects of a Changeable Policy on Technology Diffusion: Wind Power in Italy**  
Teresa Romano (Politecnico of Milan)
- 

**Thursday, August 13**

---

- 09:30-11:00 The Economics of Energy Storage I**  
Richard Green (Imperial College Business School)
- 11:00- 11:30 Coffee Break
- 11:30-13:00 The Economics of Energy Storage II**  
Richard Green (Imperial College Business School)
- 13:00-14:30 Lunch Break
- 14:30-16:00 Reliability, Congestion and Investment: Inefficiencies in Electricity Transmission  
Reliability Management**  
Marten Ovaere (KU Leuven)
- On the Market Value of Wind Power in the Chinese Electricity System**  
Christoph Weissbart (University of Munich)
- 16:00-16:30 Coffee Break
- 16:30-17:15 Analysing the Future of Pumping-Storage Power Plants (PSP) Under Large  
Penetration of Renewable Energies in the Swiss Electricity Market**  
Sebastian Osorio (University of Lausanne)
- 

**Friday, August 14**

---

- 09:30-11:00**    **The Economics of Energy Storage III**  
Richard Green (Imperial College Business School)
- 11:00-11:30    Coffee Break
- 11:30-13:00**    **The Economics of Energy Storage IV**  
Richard Green (Imperial College Business School)
- 13:00**            **Closing Remarks**  
**Farewell Snacks**
-
